Register

The next activity is the login page. Here users may authenticate themselves once registered to proceed to the home page and the chat room. This is also where users will find the link to reset their password.

- •Pressing the "Login" button will authenticate the user and log then into the application
- •Pressing the "Register" button will bring the user back to the register page, so that they may create credentials
- •Pressing the "Forgot Password" button will direct the user to a page where they may receive an email link to reset their password.

SUBMIT FOR NEW PASSWORD

Home Page

After logging in, the user will find themselves on the home page. Displayed here is their custom user name, and the date they signed up. Below that is a random quote, which is randomly generated every time the home page is opened. It is from this page that the user also will find option to delete their account.

- Press the Chat Bubble on the toolbar at the top of the page to be directed to the chat room.
- Press the ellipsis to show available options, such as Log Out, Delete Account and Exit.

What we achieve inwardly will change outer reality.

Plutarch

Delete User

Should the user want to delete their account, they have the option to do so. Pressing on the ellipsis on the home page will display a menu with "Delete Account" as an option:

Chat Room

This is the chat room! Here all users of the chat application can communicate in real time, with a fun retro feel. Pressing the Floating Action Button with the Chat Bubble will send the user's message and post it on the chat room wall. The wall itself is scrollable to view older conversations, and the keyboard can be hidden for greater visibility, as shown below:

New Quote

Lastly, pressing the Back arrow on the chat room's toolbar will direct the user back to the home page. Here there is a brand-new quote waiting for the user:
